## Wedding Bible Options

The *Thompson Chain Reference* Bible has been the most popular choice of brides for many years. There are two sizes – a slightly smaller *Handy-size* and the larger *Standard-size*. Both Bibles have the same content – the only difference is size. Our catalog description with dimensions and prices is attached on a separate page. All Bibles are available with thumb-index. Each Bible is attractive in its own way – it is a matter of personal preference concerning the look and feel of the leather.

All Thompson Chain Bible covers are genuine leather; even though the finishes are different and the prices vary, the overall quality and durability is comparable. The covers can be described as follows:

### Handy-Size

#### **536**

Capri grain. A genuine leather with a natural leather-grain finish. It tends to have a varied grain and could be compared to a wood-grain finish. (Though not as soft as the 531, below, this is still a good quality leather.)

#### **531**

Cromwell Montana Cowhide. Premium genuine leather with a softer feel than the 536.

### Standard-Size

#### **506**

Capri grain. The same leather finish as the 536, described above.

#### **510**

Levant grain. This leather exhibits a coarser finish – like snake-skin.

#### **561**

Cromwell Montana Cowhide. Premium genuine leather with a softer feel than the 506 and 510.

### **Cambridge KJ566:XR**

*Concord Reference Bible* with a goatskin cover from Cambridge. This Bible does not have the *Thompson Chain* references; although it does feature standard center-references and a nice concordance. The *Thompson Chain* is more of a study Bible. The goatskin cover on the Cambridge Bible is ultra-soft and durable.

### **Cambridge KJ564:XR**

Same as above with a Calf-split leather cover. A quality genuine leather. Not as soft as the goatskin and with a different texture.

# Thompson Chain Reference Bibles

This is a Bible for anyone who loves the Word of God and wants a Bible to help him learn to know it better. The excellent quality of the materials and the usefulness of the system of helps make this a wonderful Bible to own or to give as a gift.

The Chain Reference Bible has helps built around the Bible text in two wide columns, located directly opposite the verses. These “chains of references” are linked throughout the Bible, and a reference number appears before each marginal help which connects with the same number within the eight departments of helps in the back of the Bible.

The Thompson Chain Reference Bible features expanded Bible helps, a Bible glossary of archaic terms, and a Hebrew calendar.

## Suggestions and options for Bible Imprints

Attached is a sample type sheet showing the different fonts available from Gospel Publishers.

Generally, we use a smaller type for any message on the inside cover (also known as the flyleaf), and a larger type for the name on the cover. With this in mind, the Murray Hill and Goudy fonts are the only ones we have available in two type sizes. However, you may choose one of the other fonts if you don't mind having the same size inside and outside.

Our imprint machine allows a maximum of 3 lines inside – 1 at the top and 2 at the bottom. If choosing three lines the date is usually at the top, with a short message and the bride's name at the bottom. (If you've seen longer messages, they have not come from Gospel Publishers.)

For example:

June 25, 2010

With all my love,  
Melissa

Other possibilities include:

On our wedding day...  
With all my love, Melissa

Love makes all hearts gentle,  
With all my love, Melissa

All my love forever,  
On our wedding day, Melissa

Kirkbride / Thompson Chain  
531 or 561

The image shows the front cover of a book. The cover is a dark, textured green color, possibly made of cloth or leatherette. It has a subtle, embossed pattern that looks like a repeating floral or geometric motif. In the center of the cover, there is a white rectangular label with black text. The text on the label reads: "Kirkbride", "536 (Handy Size)", "or", and "506 (Standard Size)".
